

Site Technical Processing Manager

Freedom Foods Group Limited is an ASX listed innovative FMCG company that has a mission to create quality, on-trend, great-tasting, responsibly Australian produced food and beverages. Food and beverages that people enjoy and feel good about.

We aim to continually innovate and re-imagine what is possible, to change the way the world eats for the better.

About the role

Reporting to the Site General Manager, this role will focus the identification and delivery of all Continuous Improvement engineering requirements in a fast paced working environment. This role is responsible for the process design, operation and implementation as well as being able to improve industrial processes in order to maintain efficiency, reduce costs, improve sustainability and maximise profitability.

Key responsibilities of the role will be:

- Coaching and providing guidance to the maintenance and production teams, driving the Lean mentality;
- Driving and delivering OEE through identifying and executing some process improvement strategies across the business;
- Reducing bottlenecks in the multiple production processing lines and packaging departments;
- Evaluating manufacturing process applying knowledge of product design, tooling, and materials; consulting with equipment manufacturers; establishing standard procedures and attaining maximum productivity;
- Improving manufacturing efficiency by analysing and planning work flow, space requirements, and equipment layout;
- Develop best practices, routines and innovation solutions to improve production rates and quality of output; and
- Preparing product and process reports by collecting, analysing, and summarising information and trends.

To be successful in this role you will be a high performer with a strong desire to drive outcomes and achieve success for the Company. You will have completed at minimum a Bachelor's Degree in Engineering coupled with at least 5 years' experience driving Continuous Improvement projects and leading the charge on driving the OEE, within an FMCG environment.
